Erasmus+ Programme
Inter-institutional agreement
Key Action 1
Learning mobility for higher education students and staff
between EU Member States and third countries associated to the Programme
and third countries not associated to the Programme

The institutions¹ named below agree to cooperate for the exchange of students and/or staff in the context of the Erasmus+ programme. This agreement is valid for the Erasmus+ call years 2023-2028 in:

¹ Inter-institutional agreements can be bilateral or multilateral in the case of mobility consortia:

- KA131
- KA171

The institutions commit to sound and transparent management of funds allocated to them through Erasmus+ and to respect the quality requirements of the Programme, outlined in the Erasmus Charter for Higher Education² and in this agreement.

The institutions agree on exchanging their mobility-related data according to the principles of GDPR³ and in line with the technical standards of the European Student Card Initiative⁴, when this becomes available for international mobility involving third countries not associated to the Programme.

Sending institutions located in EU/EEA countries have to ensure compliance with the provisions of art. 46 GDPR for all participants' personal data exchanged in the context of their mobility with institutions from non-EU/EEA countries without an adequacy decision, on the condition that enforceable data subject rights and effective legal remedies for data subjects are available in the respective third country. The participants should be informed in a transparent manner about the level of protection of their personal data, if this is different from the one where the sending institution is located.

-
- Bilateral agreements are for cooperation between one higher education institution located in an EU Member State or third country associated to the Programme and another institution located in a third country not associated to the Programme
 - Multilateral agreements are for cooperation between a mobility consortium of higher education institutions located in one single EU Member State or third country associated to the Programme and another institution located in a third country not associated to the Programme.

4. Partnership arrangements: fees and organisational support funds

In accordance with the Erasmus Charter for Higher Education and the Turing scheme, partners commit to charge no additional fees to students:

- In connection with the organisation or administration of their Erasmus+ mobility period. Any violation to this rule by the partners shall be brought to the attention of the National Agency and may lead to the termination of the participation in the project linked to this inter-institutional agreement, if no corrective measures are taken.
- For tuition, registration, examinations or access to laboratory and library facilities. Nevertheless, they may be charged small fees on the same basis as local students for costs such as insurance, student unions and the use of miscellaneous material.

5. Outreach and Selection of participants: calendar, application procedure and requirements

- Partners commit to doing outreach to participants with fewer opportunities to encourage their participation in the Programme and, where needed, agree on a common strategy to meet indicative inclusion targets.
- Partners commit to running selection procedures for mobility activities that are fair, transparent and documented, ensuring equal opportunities to participants eligible for mobility. The calls for applications must be public and an appeal procedure must be in place. Under no circumstances, shall applicants and selected participants incur any costs during application and selection procedures.
- In the case of student mobility, partners will ensure that other elements beyond academic merit are taken into account to ensure participation of students with fewer opportunities. Selection criteria and procedures must be clearly communicated in the call for applications.

Applications/information on nominated students must reach the receiving institution by:

8. Grading systems of the institutions

It is recommended that receiving institutions provide the statistical distribution of grades or make the information available through [EGRACONS](#) according to the descriptions in the [ECTS users' guide](#)¹¹. The table will facilitate the interpretation of each grade awarded to students and will facilitate the credit transfer by the sending institution.

I COSENZA01	<p>Exams are certified according to the local grading system, which is a 30-point scale (marks range from 18/30, minimum mark to pass, to 30/30 cum laude), also the ECTS/CFU credits are indicated for the exams passed successfully. Credits reflect the quantity, while grades assess the quality of the completed work. In order to simplify the procedure of comparing and transferring grades, in a transparent way, from the University of Calabria to other European Universities and vice versa, grading tables are used. These include the percentage of students that, over the duration of the degree courses, have received "local grades" (or each degree program or group of homogeneous programs offered by exchanging Universities). Grading tables have been organized according to Erasmus general ISCED subject codes.</p>	<p>For grading tables link at http://www.unical.it/portale/portaltemplates/view/view_ects.cfm?34454 Course catalogue in Italian http://www.unical.it/portale/didattica/offerta/catalogo/</p>
